

COVID-19 Information (last update 18.03.2020)

To whom it may concern,

Due to current developments in COVID-19, we have taken measures, to protect our employees, customers, suppliers and to secure our supply chain.

For this, we have implemented company-wide hygiene measures. In addition, our travel activities and the reception of visitors were temporarily suspended. We have also ensured our accessibility and efficiency through home office solutions.

By decision of the management, we will apply for short-time working on March 20th, 2020. The only change for our customers will be that we will no longer be available on Fridays from 12.00 noon. Other absences will be compensated by internal representatives.

At this point, the freight situation between the USA and Germany may lead to delays in delivery. If necessary, we will be happy to check special shipments, but these may lead to higher costs. Please contact our sales team for more detailed information.

We are constantly monitoring developments and will derive appropriate measures from changes.

To keep you informed, this letter will be updated on www.fuerniss.de/en/coronaE.html.

Best regards
FüRNISS GmbH
